

determined further investigation with respect to the products manufactured at the Fairmont facility and imports of products by Philips Lighting Corporation during the relevant period is warranted. The further review will seek to establish whether any articles produced at the Fairmont facility during the relevant period are like or directly competitive with any products imported by the company during that period or whether production of any article was shifted from the Fairmont facility to Mexico or Canada during the relevant period.

#### **Reef Gear Manufacturing, Incorporated, Plant II, Marine City, Michigan; Notice of Termination of Affirmative Determination Regarding Application for Reconsideration**

On February 11, 1998, the Department issued an Affirmative Determination Regarding Application on Reconsideration applicable to workers and former workers of the subject firm. The notice was published in the **Federal Register** on February 24, 1998 (63 FR 9264).

The Department initially certified TAA to workers of Reef Gear, Plant II, Marine City, Michigan producing gear blanks because the "contributed importantly" group eligibility requirement of section 22(3) of the Trade Act of 1974, as amended, was met.

The company requested that the certification be reconsidered because it felt that imports had not caused the worker separations and provided some information which the Department felt warranted a review of its certification. After repeated attempts to collect additional information from the

company, and not receiving any further information, the Department is terminating its investigation for reconsideration of this petition.

Signed at Washington, DC, this 30th day of November 1999.
